

## R.E

In R.E we start the term with the topic 'Pentecost'. The children will have the opportunity to discuss this holy day and why we celebrate the Holy Spirit. We will move on to our 'Reconciliation' topic after a few weeks.

## Science

In Science this term we are looking at the human body! We will learn the names for all the different parts of the body and why each part is important. We will also learn about the five senses.

## English

The children will continue to work within their Read Write Inc groups each morning. They will have lots of opportunities to practise their expression and comprehension when reading. In our Literacy lessons, we will be using lots of adjectives and describing characters and settings.

## Maths

We are always busy with numbers in Y1. We will focus on our numbers from 0-100 this term and we will also start to sort objects into groups. This will help us to solve multiplication problems. We will continue to solve real life number problems throughout the term.

## P.E

In P.E we will be practising athletics. The children will learn about different types of running, jumping and throwing.

## Y1 Topic Map

Summer

2017

## I.C.T

The children will have plenty of opportunities to practise their computer skills this term. We will be researching Titanic on the iPads and playing lots of interactive games on the whiteboard.

## History/Geography

For topic this term we are learning all about Titanic! The children will find out what the Titanic was, where it was made, the people that boarded the ship and its tragic ending.

## Art/DT

We will be creating our own ships with different materials and seeing if they float or sink in the water!

## Phonics

We will be practicing reading real words and alien words as we lead up to the Phonics screening check in June. The children will practise creating their own alien words and will put all their phonics knowledge into practise! They are already fabulous at recognising the special friends in words and blending these sounds together.
